Almelo, 1st of July 2014

Subject: Letter of Recommendation/ Reference letter

Dear Madam, dear Sir,

By means of this letter, we inform, to whom it may concern, that in the year 2014, Fawic Packaging Systems, was engaged by Hitec Power Protection to produce a mobile climate control room for testing our diesel UPS systems. The team of Fawic Packaging Systems was very professional in the engineering, production, project management and installing the mobile climate room in the test field of Hitec Power Protection. They worked in a collaborative way with the responsible people of Hitec Power Protection BV.

Fawic Packaging systems has been a perfect partner to work with and they delivered the expected mobile climate control room for our diesel UPS systems. We would not hesitate to work with Fawic Packaging Systems again and I would recommend Fawic Packaging Systems to anyone seeking for this kind solution or other solutions they offer.

As enclosure, a picture of climate control room is enclosed.

Sincerely,

Albert Bal
Manager Testfield
